DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Kevin Shaw on December 1, 2006.

3. The application has been amended as follows:

In regards to claim 23, at line 10, replace the portion after "the fluid chamber" with --so as to provide fluid flow to and from the fluid chamber through the catheter during extending and retracting, respectively, of the catheter--.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

In regards to claim 23, no prior art of record teaches or fairly suggests a device for collection of a fluid sample comprising, inter alia, a flexible catheter attached to a plunger, a syringe barrel, which has a volume that varies on axial movement of the plunger to provide a fluid flow path to and from the barrel through the catheter during subsequent extending and retracting of the catheter; wherein the catheter is sufficiently flexible to bend and follow the conformation of an internal body cavity upon encountering of a wall thereof, without damaging tissue from said cavity.

In regards to claims 37 and 43, no prior art of record teaches or fairly suggests a method for collection of a fluid sample from internal body cavity of a mammal comprising the steps of moving the catheter into the body cavity while simultaneously passing wash fluid through the hollow catheter to wash a portion of the surface of the internal cavity during said movement; wherein the catheter is subsequently withdrawn from the body cavity while simultaneously collecting a fluid sample by aspirating the wash fluid through the catheter during said withdrawing.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rene Towa whose telephone number is (571) 272-8758. The examiner can normally be reached on M-F, 8:00-16:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (571) 272-4726. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
